LEVELS OF MEMBERSHIP

determining your tier level

You are placed in a tier based on the number of Status Points earned in a six month period. If you are new to the Club, you are automatically placed in the Bronze tier level.

At the beginning of each month a review will occur of all members. If you are eligible to move up into a new tier, you will be promoted by the first day of the month.

Every January & July a review will take place of those members who have not earned enough status tiering points to stay in their current tier. If you have not retained your current tier level, you will then be moved into a new tier in January & July.
